

HCI International 2026

26-31 July 2026
Montreal Convention Centre,
Montreal, Canada

CCD 2026

18TH INTERNATIONAL CONFERENCE ON CROSS-CULTURAL DESIGN

Jointly held under one management and one registration with HCI International 2026

<https://2026.hci.international/ccd>

Chair

Pei-Luen Patrick Rau (rpl@mail.tsinghua.edu.cn)

The increasing internationalization and globalization of communication, business and industry is leading to a wide cultural diversification of individuals and groups of users who access information, services and products. If interactive systems are to be usable, useful, and appealing to such a wide range of users, culture becomes an important HCI issue. Therefore, HCI practitioners and designers face the challenges of designing across different cultures, and need to elaborate and adopt design approaches, which take into account cultural models, factors, expectations and preferences, and allow to develop cross-cultural user experiences accommodating global users.

The Cross-Cultural Design (CCD) Conference, an affiliated Conference of the HCI International Conference, arrived at its 18th edition and solicits papers from academics, researchers, industry and professionals, on a broad range of theoretical and applied issues related to Cross-Cultural Design and its applications.

The related topics include, but are not limited to:

- Communication barriers
- Cross-cultural communication
- Cross-cultural interaction
- Cross-cultural management
- Cross-cultural negotiation
- Cross-cultural product and service design
- Cross-cultural study of artificial intelligence
- Cross-cultural training
- Cultural differences
- Culture and psychology
- Design for social change in global markets
- Design for social development
- Developing HCI expertise and capability worldwide
- Intercultural business communication
- International ethnographic studies
- International standards
- International usability evaluation
- Leadership in the global company
- Organizational culture under globalization

Submission deadlines are available at the
